ANALYTIC SUBJECT INDEX

a-$Se_{100-x}Te_x$
– Composition dependence of photoconductivity in — - Misra et al. 167 (1990) 195
a-$Si_{1-x}Sn_x$: H, thin films
– The structure of a-$Si_{1-x}Sn_x$: H thin films - Edwards et al. 167 (1990) 247
AgBr : I
– Impurity–impurity interaction mediated by coherent phonons - Khater and Czaja 167 (1990) 33
Amorphous alloys (see *Transition metal–metalloid alloys*) 167 (1990) 71
Anisotropic percolation system
– Possible breakdown of the universality of the conductivity critical exponent in an — - Yoon et al. 167 (1990) 133
Anisotropic semiconductors
– Shallow surface donor impurity states of Ge, Si and GaP - Pei et al. 167 (1990) 40

Charged hard-sphere reference system
– Thermodynamics and structure of liquid metals from the charged hard-sphere reference fluid - Akinlade et al. 167 (1990) 61
Cluster electronic states
– Algorithms of interaction between solid — and a crystral lattice - Liverts 167 (1990) 85
Clusters, density functional formalism of
– Density functional study of neutral and charged sodium and lead clusters in the jellium model - Rubio et al. 167 (1990) 19
Coherent states
– The real wave function as an integral part of Schrödinger's basic view on quantum mechanics; detailed comments - Chen 167 (1990) 182
Collective excitations in heterostructures
– Electron–phonon interaction, dynamical screening and — I - Wendler et al. 167 (1990) 91
Conductivity, critical exponent of
– Possible breakdown of the universality of the conductivity critical exponent in an anisotropic percolation system - Yoon et al. 167 (1990) 133
Conductivity in a 2D percolating network
– Experimental study of the conductivity exponent in a two-dimensional Swiss cheese percolating network - Han et al. 167 (1990) 185
Critical exponents in a percolating network
– Experimental study of the conductivity exponent in a two-dimensional Swiss cheese percolating network - Han et al. 167 (1990) 185
Cu-doped alkali halides
– Electronic spectroscopy of KF : Cu^+ - Ramasesha and Payne 167 (1990) 56

Deuterated solids
– Excitation of nuclear reaction under mechanical effect (impact) on — - Derjaguin et al. 167 (1990) 189

Discrete dipole approach
– Exact solution of the optical response of thick slabs in the — - Poppe and Wijers 167 (1990) 221
Disordered conductors
– Comments on "Electrical transport properties of morpholinium-$TCNQ_2$ compounds" - Jos 167 (1990) 45
– Reply to comments - Kramer et al. 167 (1990) 47
Dissipative phenomena
– On the theory of — in viscous liquids - Gladkov 167 (1990) 145
$DyFe_{11}Ti$
– Magnetic and magnetoelastic properties of — single crystals - Andreev et al. 167 (1990) 139
Dynamical screening
– Electron–phonon interaction, — and collective excitations in heterostructures I - Wendler et al. 167 (1990) 91
Dynamically screened potential
– Electron–phonon interaction, dynamical screening and collective excitations in heterostructures II - Wendler et al. 167 (1990) 101

Electrical resistivity anomaly
– Electrical resistivity and entropy of mixing of liquid lithium–lead and sodium–lead alloys - Mishra et al. 167 (1990) 7
Electrical transport properties
– Comments on "Electrical transport properties of morpholinium-$TCNQ_2$ compounds" - Jos 167 (1990) 45
– Reply to comments - Kramer et al. 167 (1990) 47
Electron–ion interactions
– Thermodynamics and structure of liquid metals from the charged hard-sphere reference fluid - Akinlade et al. 167 (1990) 61
Electron–phonon and –electron interactions
– Electron–phonon interaction, dynamical screening and collective excitations in heterostructures II - Wendler et al. 167 (1990) 101
Electron–phonon interaction
– —, dynamical screening and collective excitations in heterostructures I - Wendler et al. 167 (1990) 91
– —, dynamical screening and collective excitations in heterostructures III - Wendler et al. 167 (1990) 113
Electron structure calculations
– Algorithms of interaction between solid cluster electronic states and a crystral lattice - Liverts 167 (1990) 85
Electronic spectroscopy
– — of $KF:Cu^+$ - Ramasesha and Payne 167 (1990) 56
EXAFS measurements
– The structure of a-$Si_{1-x}Sn_x$:H thin films - Edwards et al. 167 (1990) 247

1/f noise
– — and generation–recombination processes at discrete levels in semiconductors - Lukyanchikova et al. 167 (1990) 201
Fe_2P
– Classification of magnetic structures in compounds with the — -structure - Yablonskii and Medvedeva 167 (1990) 125

Fe_2P, magnetic structure of
– Classification of magnetic structures in compounds with the Fe_2P-structure - Yablonskii and Medvedeva 167 (1990) 125
Fe_2P-structure compounds
– Classification of magnetic structures in compounds with the Fe_2P-structure - Yablonskii and Medvedeva 167 (1990) 125

GaP
– Shallow surface donor impurity states of Ge, Si and — - Pei et al. 167 (1990) 40
Gd^{3+} EPR
– — study of phase transitions in a $NH_4Nd(SO_4)_2 \cdot 4H_2O$ single crystal and superposition-model calculation of the zero-field splitting parameters - Misra et al. 167 (1990) 209
Ge
– Shallow surface donor impurity states of Ge, Si and GaP - Pei et al. 167 (1990) 40
Generation–recombination processes
– $1/f$ noise and — at discrete levels in semiconductors - Lukyanchikova et al. 167 (1990) 201

Hall conductivity, hopping
– Hopping Hall conductivity – a numerical study - Németh 167 (1990) 1
Heat capacity
– $TbIn_3$: Magnetization, specific heat and longitudinal magnetoresistance - Czopnik et al. 167 (1990) 49
Heat conductivity in porous structures
– The theory of heat conductivity of porous structures - Gladkov 167 (1990) 159
Heterostructures
– Electron–phonon interaction, dynamical screening and collective excitations in — I - Wendler et al. 167 (1990) 91
– Electron–phonon interaction, dynamical screening and collective excitations in — III - Wendler et al. 167 (1990) 113
Heterostructures, modulation-doped
– Electron–phonon interaction, dynamical screening and collective excitations in heterostructures II - Wendler et al. 167 (1990) 101
History
– The real wave function as an integral part of Schrödinger's basic view on quantum mechanics; detailed comments - Chen 167 (1990) 182
Hopping Hall conductivity
– — - a numerical study - Németh 167 (1990) 1

Impact nuclear reactions
– Excitation of nuclear reaction under mechanical effect (impact) on deuterated solids - Derjaguin et al. 167 (1990) 189
Impurity–impurity interactions
– Impurity–impurity interaction mediated by coherent phonons - Khater and Czaja 167 (1990) 33
Insulator–metal transition
– The structure of a-$Si_{1-x}Sn_x$: H thin films - Edwards et al. 167 (1990) 247
Interaction algorithms
– Algorithms of interaction between solid cluster electronic states and a crystral lattice - Liverts 167 (1990) 85

Jellium model, spherical
– Density functional study of neutral and charged sodium and lead clusters in the jellium model - Rubio et al. 167 (1990) 19

KF : Cu^+
– Electronic spectroscopy of — - Ramasesha and Payne 167 (1990) 56
Kubo's relation
– On the theory of dissipative phenomena in viscous liquids - Gladkov 167 (1990) 145
– The theory of heat conductivity of porous structures - Gladkov 167 (1990) 159

Lead alloys, liquid
– Electrical resistivity and entropy of mixing of liquid lithium–lead and sodium–lead alloys - Mishra et al. 167 (1990) 7
Li–Pb
– Electrical resistivity and entropy of mixing of liquid lithium–lead and sodium–lead alloys - Mishra et al. 167 (1990) 7
Liquid alloys
– Electrical resistivity and entropy of mixing of liquid lithium–lead and sodium–lead alloys - Mishra et al. 167 (1990) 7
Liquid metals, structure of
– Thermodynamics and structure of liquid metals from the charged hard-sphere reference fluid - Akinlade et al. 167 (1990) 61

Magnetic phase transitions and phase diagram of TbIn3
– $TbIn_3$: Magnetization, specific heat and longitudinal magnetoresistance - Czopnik et al. 167 (1990) 49
Magnetic properties of $DyFe_{11}Ti$
– Magnetic and magnetoelastic properties of $DyFe_{11}Ti$ single crystals - Andreev et al. 167 (1990) 139
Magnetic structures
– Classification of — in compounds with the Fe_2P-structure - Yablonskii and Medvedeva 167 (1990) 125
Magnetization (see *Ni thin films*) 167 (1990) 239
Magnetoresistance
– $TbIn_3$: Magnetization, specific heat and longitudinal — - Czopnik et al. 167 (1990) 49
Mechanical effect on deuterated solids
– Excitation of nuclear reaction under mechanical effect (impact) on deuterated solids - Derjaguin et al. 167 (1990) 189
Mixing entropy anomaly
– Electrical resistivity and entropy of mixing of liquid lithium–lead and sodium–lead alloys - Mishra et al. 167 (1990) 7
Morpholinium-$TCNQ_2$ compounds
– Comments on "Electrical transport properties of —" - Jos 167 (1990) 45
– Reply to comments - Kramer et al. 167 (1990) 47

Na clusters
– Density functional study of neutral and charged sodium and lead clusters in the jellium model - Rubio et al. 167 (1990) 19

Na–Pb
– Electrical resistivity and entropy of mixing of liquid lithium–lead and sodium–lead alloys - Mishra et al. 167 (1990) 7
$NH_4Nd(SO_4)_2 \cdot 4H_2O$
– Gd^{3+} EPR study of phase transitions in a — single crystal and superposition-model calculation of the zero-field splitting parameters - Misra et al. 167 (1990) 209
Ni thin films
– Temperature dependence of magnetization in nickel thin films - Świrkowicz 167 (1990) 239
Nuclear reactions
– Excitation of nuclear reaction under mechanical effect (impact) on deuterated solids - Derjaguin et al. 167 (1990) 189

Optical response of dielectrics
– Exact solution of the optical response of thick slabs in the discrete dipole approach - Poppe and Wijers 167 (1990) 221
Optical spectroscopy
– Electronic spectroscopy of $KF : Cu^+$ - Ramasesha and Payne 167 (1990) 56

Pb clusters
– Density functional study of neutral and charged sodium and lead clusters in the jellium model - Rubio et al. 167 (1990) 19
Percolating network, two-dimensional
– Experimental study of the conductivity exponent in a two-dimensional Swiss cheese percolating network - Han et al. 167 (1990) 185
Percolation breakdown
– Possible breakdown of the universality of the conductivity critical exponent in an anisotropic percolation system - Yoon et al. 167 (1990) 133
Percolation theory
– Hopping Hall conductivity - a numerical study - Németh 167 (1990) 1
Phase transitions
– Gd^{3+} EPR study of — in a $NH_4Nd(SO_4)_2 \cdot 4H_2O$ single crystal and superposition-model calculation of the zero-field splitting parameters - Misra et al. 167 (1990) 209
Phonon interactions
– Impurity–impurity interaction mediated by coherent phonons - Khater and Czaja 167 (1990) 33
– Study of interaction forces and phonons in some spinels and mixed systems - Gupta et al. 167 (1990) 175
Photoconductivity
– Composition dependence of — in a-$Se_{100-x}Te_x$ - Misra et al. 167 (1990) 195
Plasmon-phonons, coupled
– Electron–phonon interaction, dynamical screening and collective excitations in heterostructures III - Wendler et al. 167 (1990) 113
Porosity, influence of
– On sound absorption in two-phase systems - Gladkov 167 (1990) 75
Porous structures
– The theory of heat conductivity of — - Gladkov 167 (1990) 159
Positron, lifetime of
– Positron lifetime in amorphous transition metal–metalloid alloys - Chardalas et al. 167 (1990) 71

Schrödinger's basic view on quantum mechanics
– The real wave function as an integral part of —; detailed comments - Chen 167 (1990) 182
Se–Te alloys
– Composition dependence of photoconductivity in a-$Se_{100-x}Te_x$ - Misra et al. 167 (1990) 195
Semiconductor heterostructure
– Electron–phonon interaction, dynamical screening and collective excitations in heterostructures III - Wendler et al. 167 (1990) 113
Semiconductors, 1/f noise in
– $1/f$ noise and generation–recombination processes at discrete levels in semiconductors - Lukyanchikova et al. 167 (1990) 201
Si
– Shallow surface donor impurity states of Ge, — and GaP - Pei et al. 167 (1990) 40
Solid clusters, electronic structure of
– Algorithms of interaction between solid cluster electronic states and a crystral lattice - Liverts 167 (1990) 85
Soliton model
– Comments on "Electrical transport properties of morpholinium-$TCNQ_2$ compounds" - Jos 167 (1990) 45
– Reply to comments - Kramer et al. 167 (1990) 47
Sound absorption
– On — in two-phase systems - Gladkov 167 (1990) 75
Spin-wave density of states
– Temperature dependence of magnetization in nickel thin films - Świrkowicz 167 (1990) 239
Spinels
– Study of interaction forces and phonons in some — and mixed systems - Gupta et al. 167 (1990) 175
Surface impurity states
– Shallow surface donor impurity states of Ge, Si and GaP - Pei et al. 167 (1990) 40

$TbIn_3$
– —: Magnetization, specific heat and longitudinal magnetoresistance - Czopnik et al. 167 (1990) 49
Thick slab dielectric response
– Exact solution of the optical response of thick slabs in the discrete dipole approach - Poppe and Wijers 167 (1990) 221
Transition metal–metalloid alloys
– Positron lifetime in amorphous — - Chardalas et al. 167 (1990) 71
Two-phase systems
– On sound absorption in — - Gladkov 167 (1990) 75

Viscous liquids
– On the theory of dissipative phenomena in — - Gladkov 167 (1990) 145

X-ray diffractometry
– Magnetic and magnetoelastic properties of $DyFe_{11}Ti$ single crystals - Andreev et al. 167 (1990) 139

Zone centre phonons
– Study of interaction forces and phonons in some spinels and mixed systems - Gupta et al. 167 (1990) 175
